The AHA/ASA continues to follow best practice with regard to the requirements for copyright assignment for submitted abstracts and articles. Although we appreciate that is sometimes problematic to obtain all abstract author signatures, we feel that it is important to validate [or verify] the inclusion of authors' names in submitted material that may be accepted after grading for publication in *Stroke: A Journal of the American Heart Association*. We will continue to require that all authors sign the copyright assignment sheet. Efforts are underway here at the AHA/ASA to facilitate this process in the future through the use of digital signatures by authors.

The American Heart Association, Inc (AHA), a New York not-for-profit corporation, located at 7272 Greenville Ave., Dallas, TX 75231, and Author(s) hereby agree as follows:

In consideration of the ASA's acceptance of the abstract listed below for presentation at International Stroke Conference 2007,

Title of Abstract:
--------------------

The undersigned author(s) hereby assigns, conveys, and otherwise transfers all rights, title, interest and copyright ownership in said work to the AHA/ASA effective upon acceptance of said work for publication. "Work" includes the material submitted for publication and any other related material submitted to the AHA/ASA.

The assignment of rights to the AHA/ASA includes, but is not expressly limited to rights to edit, publish, reproduce, distribute copies, prepare derivative works, include in indexes or search databases in print, electronic, or other media, whether or not in use at the time of execution of this agreement, and claim copyright in said work throughout the world for the full duration of the copyright and any renewals or extensions thereof.

*The assignment of rights hereunder does not extend to the full length article on which the abstract is based.*

Author(s) retain the right to subsequently include the work in articles, books, or derivative works that he/she authors or edits provided said use does not imply the endorsement of the AHA/ASA. Other uses or reproductions require permission from the AHA/ASA, which shall not be unreasonably withheld.

Author(s) hereby represents and warrants that he/she/they is/are sole author(s) of the work, that all authors have participated in and agree with the content and conclusions of the work, and that the work is original and does not infringe upon any copyright, proprietary, or personal right of any third party.

In the event that the AHA/ASA does not publish said work, author(s) will be so notified and all rights assigned hereunder will revert to author(s).

If a joint work, all co-authors must transfer rights in said work to the AHA/ASA by executing this Agreement.

This agreement must be executed as is without revision or substitution of terms. A handwritten signature of the author(s) is required.

This agreement is governed by the laws of the United States of America.
